

# Music Lessons

Group and Private Lessons: Piano, Guitar,  
Voice, Violin, Cello, Drums & Percussion

> EXPERIENCED TEACHERS

> YEAR-ROUND MUSIC CLASSES

> REGULAR MUSIC RECITALS

> ENHANCED MUSIC LITERACY  
PROGRAMS

> AFFORDABLE LESSONS

Musik In School has been in business since 2009. We are a small, agile music school with the ability to provide innovative music training and music enrichment programs. We are constantly improving our program, so please spend a little time reading through our brochure. Drop us a call or email us and we love to chat with you soon!

# Teaching Methodology

## Making Lessons fun!

1. Music lessons should be an enjoyable experience.
2. Students should use method books regularly as part of learning process.
3. All styles of music should be learned.
4. Regular performance should be part of curriculum.
5. Students should learn and play music they like and enjoy.

### Group/Semi-Private Lessons

Group lessons are affordable and fun way to introduce your child to music lessons.

Many of our intermediate and advance students started in group classes and moved up to private lessons. Our group lessons are conducted as semi-private sessions allowing students to progress at their own pace. Currently we offer group lessons in piano and voice.

### Private Lessons

Private lessons are excellent way to accelerate learning. As private lesson spots are limited and expensive, we consult with parents and students extensively before accepting private students. We offer private lessons in piano, guitar, voice, violin, cello and drums/percussion.

# 10 Reasons To Choose Us

## 1. No long-term commitment:

Taking lessons with Musik In School is easy, simply begin by paying on month-to-month basis.

## 2. Convenient location:

Our program is available in convenient satellite locations in Coppell, Irving, and Carrollton.

## 3. Group and private lessons:

We offer small group lessons keeping our teacher-to-student ratio very low. We also offer private lessons in many instruments.

## 4. Qualified and experienced teachers:

All our music teachers either hold music degrees, substantial professional performance experience or both. All instructors are highly experienced teachers.

## 5. Lessons available in many instruments:

Classes are available for piano, guitar, bass guitar, violin, cello, drums/percussion and voice.

## 6. Our teachers specialize in teaching children:

Our instructors are specially trained to teach children ages 4 and up.

## 7. Our teachers are safe:

All instructors undergo criminal background checks and audition process.

## 8. Recital opportunities:

We hold three music recitals per year for our students.

## 9. Teachers use recognized curriculum:

This allows teachers and parents to monitor student's progress.

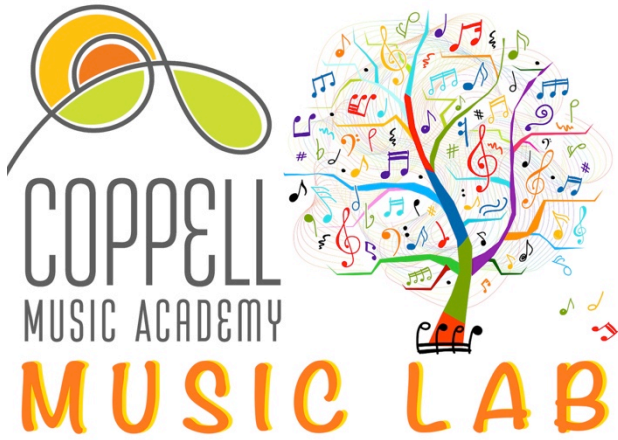

## 10. No application fee:

We don't charge registration fees at satellite locations, simply pay for lessons.

# Music Enrichment Programs

Increasing student's music appreciation, musicmanship and music literacy

**Music enrichment programs are offered as optional extensions to enhance student's music literacy**

## Music Lab

Music Lab is an exclusive program offered to only enrolled Musik In School students. The program is held twice-a-month for 1-hr and students learn about music technique, music history, music improvisation and creativity via a variety of drills, games and quizzes.

## Music Composition Summer Camp

Creativity comes naturally to children. Through this interactive and fun summer camp, students learn techniques to write original pieces of music. Six modules allow students to write and complete a fully original composition!

## Performance Concerts

These are totally separate from 3 music recitals we hold for our students. We hire professional performers to present concerts for our students. The concerts are on various fun themes. Example : Introduction To Classical Music For Kids.

# Choice Of Instruments

We offer music lessons in a variety of popular musical instruments for your convenience.

## Piano Lessons – Group and Private

Piano lessons are recommended for children ages 5 and up. We have affordable beginner piano group classes and students can then progress to private lessons. In our piano classes we teach both music theory and piano technique. Students enrolled in our program are eligible to participate in our triannual music recitals.

## Voice Lessons – Group and Private

Voice lessons are ideal for students ages 8 and up. Our 60-minute group voice classes are geared towards complete beginners. We teach students both music theory and voice technique. We also offer limited private voice lesson spots for student who need more one-on-one attention.

## Guitar Lessons - Private

Guitar lessons are ideal for students ages 7 and up. To offer best results, we have 30-minute guitar private lessons. Students learn music theory and guitar technique in their lessons. All students enrolled in lessons are eligible to participate in our triannual music recitals.

## String Lessons (Violin, Cello, Viola) - Private

We also have private string lessons available for violin, cello and viola. We accept students ages 5 and up in our string program. Students learn both music theory and specific instrument technique. All students enrolled in our program are eligible to participate in our triannual music recitals.

## Drums & Percussion Lessons - Private

Students ages 7 years and up are accepted in our drums/percussion classes. We offer 30-minute private lessons and instruments are provided in class. Students learn music theory and drum technique. All students enrolled in program are eligible for participation in our triannual music recitals.

# Piano Lesson Plan

While all students are unique, here is a general piano lesson plan for beginner students

## Piano Technique & Theory

In all our piano classes, we only utilize recognized piano technique/theory method books. In most cases we will use Alfred's Lesson Book 1A for beginner piano students up to the age of 14. Once that level has been achieved, we move our students to Bastien Piano Lesson books. While we prefer to use listed method books, all our instructors are able to teach using any recognized piano curriculum.

We will help  
you plan the  
most  
convenient and  
effective music  
education  
progress route  
for your child

Listed above is our recommended piano lesson training plan. We recommend students begin taking piano lessons in group class beginning at age of 5 and up. Students do well in piano group classes until they've completed Bastien Lesson Book 1. Once students are on Book 2 and beyond, we recommend private 30-minute piano lessons for steady progress. Please remember, piano group classes are designed and effective for beginner students.

Once students have completed level 4, they are considered intermediate level piano student and we customize plans for each students depending on their needs. For example, we have many students who want to focus on learning contemporary songs or improve their skills in a specific genre of music. In each case, we are able to help them chart a course and develop a custom curriculum to help achieve those goals.

# Student Portal

Access via our website tons of free resources, tools and programs

## Resources

There are plenty of free resources listed in Student Portal area. We are constantly adding new material to provide as much additional resources for our students to help them achieve progress quickly. These include valuable online resources for finding and printing sheet music.

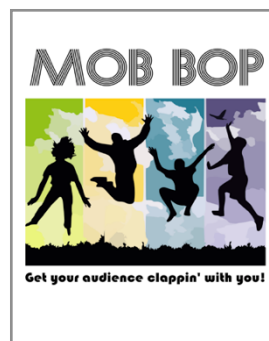

## Tools

Students can achieve amazing results with the right tools. Therefore, we have a variety of helpful tools available for our students in the Student Portal area. For example, we have audio recordings and sheet music for a exciting and popular recital performance song Mob Bop and 88 practice exercises handbook.

## Programs

We currently allow students to participate in many exciting music programs. Much of the information is relayed to parents via email. Therefore, we have placed a section in the Student Portal for archiving information about various programs. For example, you can find list of instructions for all past songs of the month program.

We recognize that to be successful, students need tools and resources. That is why we created student portal.

# SIGN UP!

Sign up process is easy. First choose the instrument you would like to enroll in: voice, guitar and drums are currently only offered in Coppell location. Piano classes are offered in all four locations. Enrollment for The Core (Coppell Aquatic and Recreation Center) and Rosemeade Recreation Center is done directly by the centers. Please contact their front desk for enrollment information.

Enrollment for Mustang Park Recreation Center is done by us via [musikinschool.com](http://musikinschool.com) website. All enrollment for Coppell Music Academy is done by us via [coppellmusicacademy.com](http://coppellmusicacademy.com) website.

If you're not sure about the process or have questions, please drop us a line and we'll be delighted to assist you !
